NOTES AND DEFINITIONS

This is a plan for a Condominium "Project" as those terms are used and defined in Title 6, Part 4, Division II of the California Civil Code.

This project contains: Eight (8) "A" "AR" units numbered 794, 797, 798, 801, 1000, 1003, 1004 and 1007; Eight (8) "B" "BR" units numbered 795, 796, 799, 800, 1001, 1002, 1005 and 1006; Four (4) "C" "CR" units numbered 802, 805, 806, and 809; Four (4) "D" "DR" units numbered 803, 804, 807 and 808; for a total of Twenty four (24) residence units, together with Association Common Area and Common Area as defined hereon.

The Association Common Area of this project is the entire parcel of real property included within the boundary lines of this subdivision of Lot 1 of Tract No. 36-186C, including all structures thereon except units 794 to 809 inclusive and 1000 to 1007 inclusive, as herein-defined and the real property underlying the building footprints of units 794 to 809 inclusive and 1000 to 1007 inclusive. The Common Area of this project is the building foot-prints underneath units 794 to 809 inclusive and 1000 to 1007 inclusive.

The portions of the Association Common Area referred to as "Exclusive Use Common Area" shall be designated as follows: Entry Balcony, shown "EB"; and Balcony, shown "BAL". These areas are for the exclusive use of the owners of the units to which they are attached or assigned.

The boundaries of the space in each unit of the Twenty four units granted are measured to the interior surfaces of the vertical, horizontal, and inclined planes of the limits of the dimensions shown on sheets 2 through 5 which are the interior finished surfaces of the perimeter walls, floors, ceilings, windows, and doors thereof, and the unit includes both the portions of the building so described and the air space so encompassed.

Solid lines indicate the interior finished surfaces of the walls, ceilings, and floors. All unit lines intersect at right angles unless otherwise noted.

The following are not a part of a unit: bearing walls, columns, beams, floors, roofs, foundations, central heating, reservoirs, tanks, pumps, and other central services, pipes, ducts, flues, chutes, conduits, wires, and other utility installations, wherever located, except the outlets thereof whenever located within the unit.

In interpreting deeds and plans, the existing physical boundaries of the unit, or of a unit reconstructed in substantial accordance with the original plans thereof, shall be conclusively presumed to be its boundaries rather than the metes and bounds expressed in the deeds and plans, regardless of settling or lateral movements of the building, and regardless of minor variance between boundaries shown on the plan or in the deed and those of the building.

The survey ties shown are to the vertical projections of the inside finished face of the stud walls (solid lines).

Unit types and building types which are followed by the letter "R" indicate a reverse plan unit or building.

In the event of any conflict between these notes and the definitions contained in the Declaration of Covenants, Conditions and Restrictions (C.C. & R.'s) for this project, the Declaration shall control.
